

ENT Specialists Teleconferencing Service- New patient registration

At the current moment, all services done via teleconferencing will be bulk billed provided the following criteria are satisfied:

1. Patient is a resident of Australia with a valid Medicare or DVA card
2. Valid referral from a medical practitioner to access specialist services
3. Access to Skype and/or iPhone Facetime (this requires wifi connection).
4. It is your responsibility to maintain your own privacy, and we will do the same.
5. At the time of the teleconference, you must be located in an eligible area; this can be confirmed by going to:

<http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/content/locator>

In the top right hand side of the map, put in the address, tick the "Metro" box and click on search; a pop up on the map will indicate if the address is eligible for Medicare funding.

Once we have this form and a valid referral, we will email you to organise a time.

Patient's name: \_\_\_\_\_

Address: \_\_\_\_\_

Date of birth: \_\_\_\_ / \_\_\_\_ / \_\_\_\_

**10** digit Medicare card (or DVA card number): \_\_\_\_\_  
(Please make sure there are 10 digits here)
