

ENT Specialists Teleconferencing Service

At the current moment, all services done via teleconferencing will be bulk billed.

To be eligible for this service you must satisfy the following criteria:

1. Resident of Australia with a valid Medicare or DVA card
2. Valid referral from a medical practitioner to access specialist services
3. Functional Smartphone with video call features (eg iPhone face time, Skype) or a webcamera and suitable software (eg Skype).
4. At the time of contact, it is your responsibility to maintain your own privacy, and we will do the same at our end.

This registration form needs to be completed, and is in addition to our normal registration form. We must also be in possession of a valid referral.

Please note, that a simple phone call is not adequate for meeting the criteria of Medicare.
